ML 2000 Fixed Size Web Offset Press

Automated Web Offset Press

THE ML2000 WEB OFFSET PRESS IS AN EVOLUTION OF DIDDE'S MODEL 860 PRESS, WHICH IS ONE OF DIDDE'S MOST FAMOUS PRESS LINES.

The Didde ML2000 press is ideal for short run business forms, direct mail or commercial printing applications.

The ML2000 will print up to eight colors, in any combination, at a rated speed of 26,000 impressions per hour. The ML 2000 provides the quick make-ready and ease of operation that brings the cost per thousand down on numerous applications.

Modular by design and available in two widths of 17.5" or 20.5", the ML2000 offers the configuration flexibility to meet your application requirements whether commercial, direct mail, or forms.

Precise color-to-color register can be set-up with the optional Didde Quick-Step Register System. This feature saves on set-up paper waste. Register is maintained through the range of press speeds and is aided with remote register controls and gear driven print units.

HISTORY OF GSS AND DIDDE

GSS acquired the Didde web offset press business in 2009 to add to our existing Harris narrow web press offerings that was acquired in 1995. In addition to our full range of offset printing and finishing solutions, we also offer digital printing that can be integrated onto your traditional web offset presses
